OBJECTIVE

As a web developer with 2.5 years of experience in user interface design and development, I am passionate about coding and problem-solving. I have a strong sense of creativity and an eye for detail, which allows me to create unique and engaging user experiences. I am a positive and collaborative team member, and I am excited to bring my skills and experience to your team

INTERESTS

EDUCATION

Google & Reichman University November - current

2022

I work with a variety of technologies, including React, TypeScript, JavaScript, Python, SASS, Next.js, Express.js, MongoDB, Vue.js, Bootstrap, Node, npm, and Redux. I am currently learning and working alongside some of the best developers in the industry at Google Campus. I am constantly impressed by the level of expertise and professionalism of my colleagues, and I am grateful for the opportunity to learn from them and improve my own skills.

Reichman University June - November

2022

As a student at Reichman University, I dedicated myself to my studies, spending at least 5 days per week and 12+ hours per day learning and practicing my skills as a developer. In addition to my coursework, I took additional courses in Campus.gov Algorithms: "the Open University of Israel", Data Structures: "Ben-Gurion University" Nand to Tetris: "Shimon Schocken and Noam Nisan"

These experiences enhanced my knowledge and expertise in these areas, and will be valuable to me as I continue my career as a developer.

Using: Python, OOP, Algorithms, Data Structures, TCP/IP, OSI, UDP, HTTP Protocols

Ort Alon High School

2017

Unistream 2014 - 2017

During my time in the program, I had the opportunity to work with advanced and cutting-edge technologies, develop my business and work plan creation skills, improve my communication and collaborative learning abilities, and enhance my English proficiency. Additionally, I worked closely with experienced professionals, gaining valuable insights and connections to Israel's vibrant business and entrepreneurial ecosystems.

Web Developer 2015 - 2016

As a member of the startup team, I was selected to build our website and received professional training from Unistream to support my development efforts.

Using: HTML, CSS, JS, MySQL, Python, Node.js, NPM

ACTIVITIES

Educator Oct 2013 - Sep 2016
hebrew scouts movement

As the training manager of the Hebrew Scouts Movement, I was responsible for educating and guiding our young members towards self-reliance and personal growth. It was a privilege to be a part of their journey and to witness the positive transformation they

Volunteer 2017 - 2018
Seven Stars Residence

As the training manager of the Hebrew Scouts Movement, I was responsible for educating and guiding our young members towards self-reliance and personal growth. It was a privilege to be a part of their journey and to witness the positive transformation they

Educator 2017 - 2018
Kfar Shmaryahu elementary school

I was fortunate to have the opportunity to educate the next generation at an elementary school on the importance of volunteering. Together, we volunteered twice a week to make a difference in our community and to learn the value of compassion and giving back. It was a privilege to be a part of their journey.

EXPERIENCE

2015

Unistream

Web Developer

As a web developer, I built a website for our startup using technologies such as JavaScript, Angular, CSS, SQL, Express, and Node.js. I have a strong understanding of these technologies and know how to use them to create functional, user-friendly websites that are also visually appealing

2016

Self-employed

Web Developer

After my experience in Unistream, I fell in love with coding and started my own business, Jonson. I began by developing websites for friends' businesses, and later expanded to serve local businesses. I am skilled in technologies such as React, JavaScript, TypeScript, HTML, SQL, Express, Node, and

2018

Infantry Corps

Officer

As a Sergeant, I trained and educated the next generation of warriors for eight months. I then attended officer school, where I earned a diploma for the creativity and the implementation of new tactics in the general officer exam. This led to my selection as a platoon commander, where I was tasked with leading numerous operations from inception. I was committed to bringing a fresh perspective and innovative approaches to my work.
